

## OUR PROGRAMS

---

### VOCATIONAL INTERNSHIPS

In addition to early career planning, students establish an avenue for job placement after graduation.

### FIELD EXPERIENCE

Students have the unique opportunity to broaden their knowledge base by learning valuable on-site job skills.

### SCHOLARSHIPS

Our scholarships are designed to help students fund educational programs, purchase books, or pay down student debt. Applications are accepted on an on-going basis.

## EVENTS

---

### GUEST SPEAKERS

Collaborative events are held throughout the year, such as guest lectures in local classrooms.

### PARK BEAUTIFICATION

We work with Kids For A Clean World to help keep our parks beautiful. We also build community gardens and offer many volunteer opportunities.

## CONNECT

---

If you would like to partner with us, volunteer for upcoming projects, or have general questions, please email us at: [CONTACTUS@GEMENVIRONMENTAL.ORG](mailto:CONTACTUS@GEMENVIRONMENTAL.ORG). You can also contact us directly:

**STAPLES**  
JesseRobbins  
Jewelry.com

**YC**  
You Can!

Support us by donating at [gemenvironmental.org/support](https://gemenvironmental.org/support)

## WHO WE ARE

### MISSION

G.E.M. Environmental is a 501 (c) 3 non-profit. We work with government agencies to conserve public lands. Our mission is to create an avenue for the advancement of underrepresented students of STEM fields.

Through our hands-on programs, students envision new educational goals, cultivate relationships with industry professionals, and develop greater confidence in community engagement.

### ACCESSIBILITY AND COLLABORATION

We focus on assisting students limited by social or economic barriers and welcome partnerships with community institutions and schools that transcend academic disciplines and the boundary between campus and career experience.

### HIGH-IMPACT LEARNING

Whether it's an internship, scholarship, or field experience, our educational programs work to foster academic achievement, help students develop relationships with industry professionals, and provide opportunities for integrated learning.
